

## **Missed Deadline Policy**

---

Meeting deadlines and completing work to proficiency are essential to successful completion of the Senior Project. The Senior Project calendar has been carefully created to allow for a smooth transition from one part of the project to another in a timely manner. Failure to meet deadlines or any of the requirements of the Senior Project process may jeopardize a student's graduation. In addition to a reduction in grade for the assignment, a student who misses a Senior Project deadline is referred to a mandatory Extended School Day program.
