Dear Ms. Heidel:

Thank you very much for taking the time this year to be my mentor for my senior project. It is very much appreciated and was a valuable experience. Creating a senior project is a long and sometimes stressful process, but having someone like you to go to when I had questions and to help me along the way was super helpful.

Creating this coloring book was a fun and creative process for me and I hope it was for you too. I learned many things regarding drawing and I found my time spent with you to be beneficial. I will be able to use these coloring books for myself and my friends. I will be able to have these physical copies as a true piece of artwork that I can show to display my abilities. It is also a good indicator of my progression in art, as my drawings got more complex throughout this project that I worked on for the majority of my senior year.

Thank you again for taking time out of your busy schedule to help me along with this process as it is necessary for me to graduate! I know you are a very busy person so I have much gratitude for taking on this project with me. You were a great mentor and I'm so glad I chose to do something art related. I will remember the things I learned with you to integrate into my artwork in the future. I will see you soon and will hopefully see you at softball! However, I wanted to take the time to say thank you as our time working on this project is coming to an end.

Thank you again for all your help!

Sincerely,
