

## Senior Project Proposal "Yes" Test

---

The first major component of successfully passing your Senior Project class work and achieving proficiency on your Senior Project is the Senior Project Proposal. This document must be perfect in order for it to go to the Senior Project Review Board. To help you achieve this we have created a "Yes" test to help guide you. If you cannot answer yes to all the following questions then you must revise before submission.

YES	NO	
___	___	Proposal is typed in Times New Roman, 12 pt. font.
___	___	Proposal includes required content.
___	___	Information about yourself is provided.
___	___	Clear and concise information about your Senior Project topic is articulated.
___	___	Learning stretch is identified and discussed.
___	___	Mentor is identified and qualifications are outlined.
___	___	Fieldwork, product, and documenting the process are described.
___	___	Time and cost analysis are discussed.
___	___	Mechanical and typographical errors do not exist.
___	___	Proposal is signed and dated.

If you answered "Yes" to the list of questions above, you can submit your Proposal to the Review Board. **However**, the Review Board will not give you final approval for your Proposal unless the following forms are signed and submitted:

YES	NO	
___	___	Mentor Agreement Letter
___	___	Senior Project Proposal Parent/Guardian Consent Form
___	___	Student Acknowledgement Form and Liability Waiver
___	___	Parent/Guardian Acknowledgement Form and Liability Waiver
___	___	Narragansett School System – Facilities Use form (if applicable)

**In addition, your mentor must have passed a state criminal background check. This requirement will be satisfied when mentor is added to the Narragansett School Department's approved volunteer list.**
